

THE CHINESE UNIVERSITY OF HONG KONG

Carbon Offsetting Encouragement Policy

Step-by-step Guide to Purchasing Carbon Offsets from Third Party Service Providers for Air Travel

Examples:

- A. [CLP Holdings \(CLP\)](#)
- B. [myclimate](#)

Example A. CLP Holdings (CLP)

CLP offers carbon credits purchase in renewable energy projects in China or India. In India, for example, these include [wind and solar farm projects](#) in Maharashtra, Tamil Nadu, Karnataka, Gujarat, Rajasthan, Madhya Pradesh and Telangana. The carbon credits are verified and issued by the Clean Development Mechanism (CDM) and the Verified Carbon Standard (VCS). The retail price for CDM-certified credits and VCS-certified credits are US\$8 per unit and US\$10 per unit respectively with a minimum order quantity of 10 credits.

Procedures:

1. Confirm the order information with CLP through clpcarboncredits@clp.com.hk.
2. Sign the CLP carbon credits sale agreement with CLP.
3. Receive the invoice from CLP after the agreement is signed.
4. Bank transfer to the bank account of CLP.
5. Receive the carbon credit certificates issued by CLP and the registry.

Example B. myclimate

myclimate is an international initiative that encourages everyone to contribute to the future through interactive and action-oriented educational programmes. myclimate also offers a variety of ways to calculate and offset individual and businesses' carbon emissions and has developed projects which promote quantifiable climate protection and greater sustainability worldwide.

Procedures:

1. Enter your flight details in the [online flight emissions calculator](#) offered by myclimate.

CALCULATE

2. Your carbon emission result will be calculated and shown.

Your flight:

From: Hong Kong (HK), HKG to: New York (US), JFK, Roundtrip, Economy Class, ca. 26,000 km, 1 traveller

CO₂ amount: 4.4 t

USD ▾

3. Select a carbon offset project you would like to support and click 'ADD TO CART' to proceed to payment.

Support international projects and sustainable development worldwide:

Offset your emissions in carbon offset projects in developing and newly industrialising countries. ⓘ

USD 126.00

ADD TO CART

Or select a specific region or project for your compensation:

Offset half of your emissions in Swiss carbon offset projects. ⓘ

USD 394.00

ADD TO CART

Use your offsetting to provide more efficient cook stoves for women in Kenya. ⓘ

USD 125.00

ADD TO CART

Offset your emissions by helping small farmers in Nicaragua with reforestation. ⓘ

USD 119.00

ADD TO CART

4. Checkout for the project you have selected.
